

# We want your employees to enjoy all the sights

## Blue View Vision's International Travel Solution provides support in 20 countries and territories

When your employees travel abroad, we don't want a lost or broken pair of glasses to blindsides them. That's why Blue View Vision<sup>SM</sup> is offering the International Travel Solution at no extra cost to you or your covered employees.

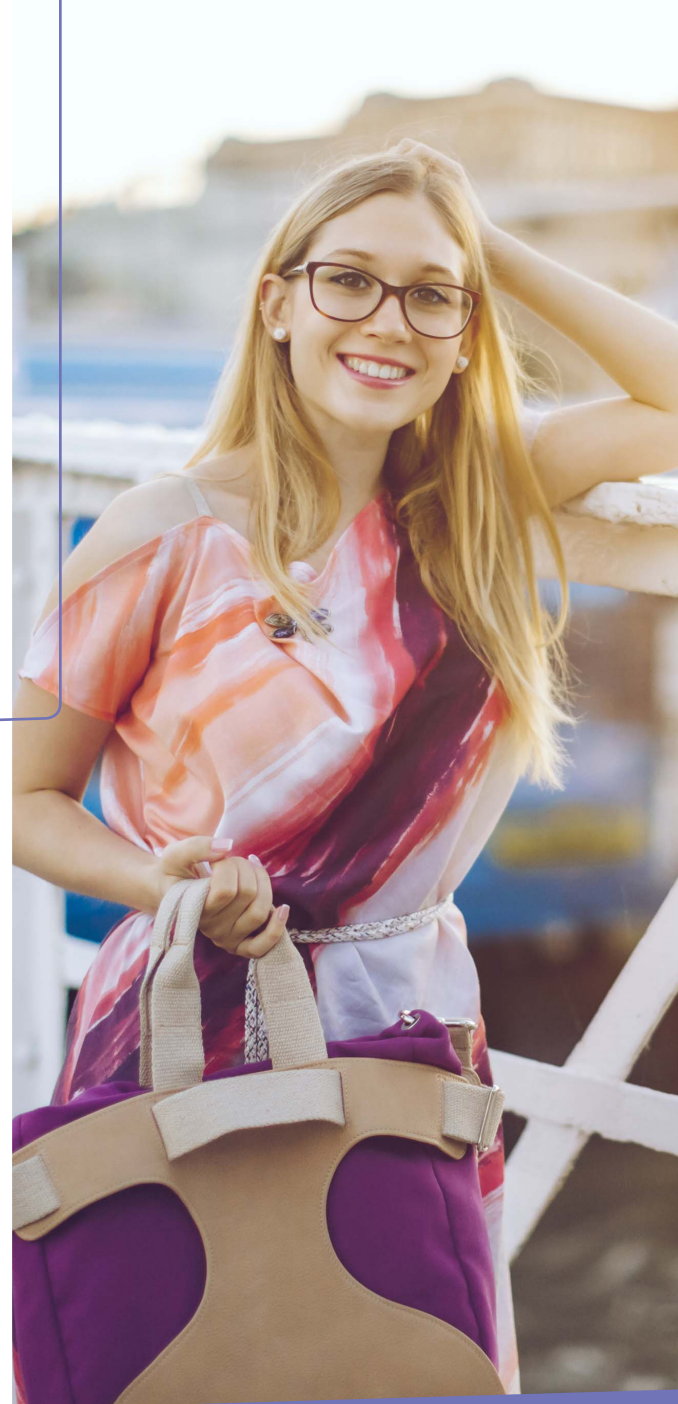

The solution enables employees to:

- Find a trusted vision provider in 20 countries and territories who offers quality care and authentic frames.\* Employees pay in full at the time of service and can submit a copy of their receipt to apply for out-of-network benefits (if not already used during the coverage period).
- Get 24/7 phone support with translation services in 160 languages should they need help communicating with an international eye doctor.
- Request free temporary emergency glasses with adjustable lenses (between +3 and -6). These can be delivered within 24 hours in most locations.

Now, your employees can travel for work and play with a little more peace of mind!

An Anthem Company

To learn more about this new program, how it works and what it can do for your employees, contact your broker or Empire representative.
