

# Prescription drug benefit highlights

This plan covers the brand-name and generic drugs, including high-cost specialty drugs, you may use the most and offers the convenience of mail-order drug coverage, usually at a lower cost.

## Our plan offers:

### A pharmacy network, including preferred pharmacies

Our Preferred Performance Network includes over 65,000 locations, which includes most national chains and many local pharmacies. In addition, the plan includes preferred pharmacies, which are retail chains that have agreed to offer our members lower copays for their prescription drugs. There are more than 28,000 preferred pharmacy locations available to you.

### A \$0 copay for Select Drugs

This plan gives you access to commonly prescribed and proven generic drugs — treating conditions like diabetes, hypertension and high cholesterol — with zero out-of-pocket expenses.

### Extra Covered Drugs

Extra Covered Drugs are drugs that are not covered by Medicare Part D, but we include them in this plan. Check the Benefits Charts to see what Extra Covered Drugs are included in the plan.

### Coverage for most commonly prescribed drugs

This guide includes a list of the most commonly prescribed drugs that are covered by this plan. The complete drug list for the plan, also called the Formulary, includes all Medicare Part D eligible drugs covered by this plan. For a complete listing, please call **1-833-848-8729**, TTY: **711**, Monday through Friday, 8 a.m. to 9 p.m. ET, except holidays.

# Ways you can save on prescription drugs

This plan can offer you low prices on prescription drugs, even if it's less than your copay. Here are other smart ways to save money.

## Choose pharmacies in the plan

To receive the most plan benefits and savings, you should always try to use one of our Preferred Performance Network pharmacies whenever you can. These include over 65,000 locations, covering most national chains and local pharmacies across the United States.

You may save even more by filling your prescriptions at one of the preferred pharmacies in the plan. There are more than 28,000 preferred pharmacies, including Albertsons/Safeway, Bartell Drugs, Costco, CVS Pharmacy, Giant Eagle Pharmacy, Harris Teeter Pharmacy, H-E-B PHARMACY, Kroger, Publix, Roundy's, Walmart and more than 5,000 independent pharmacies. Not all pharmacy chains listed above are located in every state.

## Find a pharmacy in the plan

Request a *Provider and Pharmacy Directory*. Call our **First Impressions Welcome Team at 1-833-848-8729**, TTY: 711, Monday through Friday, 8 a.m. to 9 p.m. ET, except holidays.

## Take advantage of our mail-order pharmacy options

Our mail-order pharmacy can offer significant cost savings, plus save you time, by providing up to a 90-day supply of your prescription drugs instead of a one-month supply. The copay for an increased supply through mail order is often lower than what you would pay at a retail pharmacy. Please check the Benefits Charts for the maximum day supply limits in the plan for mail-order drugs.

# How does Medicare Part D work?

This plan includes medical and prescription drug coverage. Your prescription drug coverage is called Medicare Part D. Part D is designed to help make your drugs more affordable. With your Part D coverage, you and your doctor are able to choose from a list of covered drugs, also called a formulary. These drugs are separated into tiers, which have different copay and coinsurance amounts.

## How do drug tiers work?

Your plan's drug list is grouped into levels, or tiers. The drugs on the lowest tier are generally less expensive and the drugs on the highest tier are generally more expensive.

The table below can help you identify what type of drugs are covered on each tier.

TYPE OF MED.	DESCRIPTION OF MED.	POSSIBLE TIER COVERAGE	COST COMPARISON
Generic medications	Same active ingredients and effects as the brand-name drug, but not the brand name	Tier 1 Tier 1 and Tier 2, if generic medications are split into two tiers based on price	Least expensive drugs. Usually less than brand-name drugs.
Preferred brand-name medications	Brand-name drugs that are proven to be safe and effective. This plan has preferred pricing for many drugs on this tier.	Tier 2, if the plan has one generic tier Tier 3, if the plan has two generic tiers	More than generic drugs but less than non-preferred brand-name drugs
Non-preferred brand-name medications	Brand-name drugs with higher costs to this plan. Most of these drugs have a generic drug on a lower tier.	Tier 3, if the plan has one generic tier Tier 4, if the plan has two generic tiers	More than preferred brand-name drugs
Specialty medications	Drugs that cost more than \$670 for a 30-day supply and may need special handling	On the highest tier, either by themselves or with non-preferred brand-name drugs	These are the most expensive drugs.

## How do I estimate my out-of-pocket prescription drug costs?

Call the **First Impressions Welcome Team** and ask them if your prescription drugs are covered. They can also estimate your out-of-pocket costs for your prescriptions.

## What if my prescription drugs are not covered by this plan?

If the drug you take is not on our drug list, then you have three options:

1. Ask your doctor to switch you to a different drug that is covered.
2. Request an exception.
3. Request a temporary supply and discuss other drug options with your doctor.
